Doug Limpinsel is the only NOAA staff in Alaska working on Pebble, as far as I am aware.

Glad to hear the meeting is moving forward.

Subject: NOAA contacts in Alaska

Phil -

Sorry to bother you with this but our entire science team is in the field this week. Can you send along the names of the key "on the ground" NOAA staff in Alaska that I should send any DC staff at that agency who are interested in Pebble to?

Also wanted to let you know that we are proceeding with the Seattle meeting if it works for Dennis' schedule late in the week of the 17th - I have a call into the regional office.

Thanks
